very useful piece of software

the ability to use this for both recording and streaming makes it very flexible

plus file sizes aren't all that bad. Ran into two bugs at the spaceship level etc bugged doors and bugged boss fight.

Had to quit and restart the game.

Other than everything else is okay.... I had a girl come over one day. The second she walked inside, I threw her on the couch, took off her shoes, and put on her favorite TV show so she could relax and feel comfortable. Then I forced her to the kitchen, shoved her over the dining table, and cooked a nice candle-light dinner. Then I finally carried her to my bedroom, ripped off her clothes, and gave her a new set of pajamas so she could sleep comfortably.. Like all Sigma games, it's janky and mindless, but pretty fun.. Amazing good looking skins! Buying this is a good way to support the awesome developers.. 9p? Who wouldn't?
